

DEEP ELLUM STATION

The Deep Ellum Station provides direct access to the Deep Ellum neighborhood. As one of Dallas' first commercial districts for African-Americans and European immigrants, Deep Ellum is one of the most historically and culturally significant neighborhoods in the city. The neighborhood continues to attract locals and visitors to experience the many live music venues, and is home to art and street festivals year-round. As this area continues to grow, Deep Ellum is expanding from being a traditional location for arts and live music venues to including more multi-family residential developments within the area.
