

WEEK OF FEBRUARY 26, 2024

Construction operations are ongoing in the Town of Addison and will continue throughout the project's completion in late 2025 to early 2026. Below is a four-week operation update for the week of Feb. 26. **These operations are scheduled to occur within the next four weeks, but not every operation will last the entire time frame.** Please note the durations listed below are anticipated durations and completion dates are subject to change for reasons of weather and/or unknown site conditions which may arise. For a more detailed schedule for each operation, please review the four-week schedule at: <http://www.awhsilverlinerr.com/addison>.

Community members should anticipate reduced traffic speeds and an increase of construction noise around the operations.

Dallas North Tollway (DNT) Main Lanes:

- Construction for the new bridge over DNT requires various nightly lane closures through the spring.

Addison Station:

- Platform and canopy work construction within the DART-owned right-of-way continues.

General Construction Activities:

- The work hours in the Town of Addison are 7 AM to 7 PM weekdays and 9 AM to 6 PM on weekends.
- The construction schedule may change due to severe weather or other unexpected conditions.
- Durations and expected completion dates are estimated and subject to change due to actual field conditions and constraints.
- Dust control as needed: AWH water trucks will lightly spray water onto access roads within the guideway to limit the creation of dust along the work area.
- Street sweeping as needed in the event mud is tracked onto the roadways. The community should be aware that these will be slow-moving vehicles and caution is advised when sweepers are on the roadways.
- Erosion control maintenance as needed in compliance with the Storm Water Pollution Prevention Plan.
- Grass mowing as required for tall grass along the DART-owned right-of-way.
- Any work that impacts streets or alleys will be communicated to the community once an approved traffic control permit is granted by the Town.
- Construction Activity Notices and updates will continue to be provided to the Town for new work that is starting in the DART right-of-way and how it will impact the surrounding area.
- Construction Notifications will be provided to the Town and the impacted area before the work begins. Lane restrictions and road closures will be required for this project to be safely used by everyone. It is advised that the community be aware of lane restrictions and road closures to minimize the impact on travel.

DART and AWH are committed to building trust and delivering a successful project in partnership with the residents within the project corridor. DART and AWH are committed to working with the Town, and the community with the common goal of completing a great project to serve the citizens of the DART service area.
